

## Directions for Parents to Sign Up on Edmodo

1. Have your student login to their Edmodo account.
2. Students must go to their Homepage to view their Parent Code (It is the house icon in the upper left hand corner of the page).
3. You will find a **6-digit Parent Code** on the lower left side panel of your student's page.

The screenshot shows a student's Edmodo profile page. At the top left, a red box highlights the home icon (a house) in the navigation bar. A red arrow points from this icon to a red-bordered text box that reads: "Students must go to their Homepage to view their Parent Code." Below the navigation bar, the profile header shows the student's name "Hi, Liam B. Student" and a search bar. On the left side, there are sections for "Groups" (listing PG Science, Library Media Center, SE Book Club, Education County ED Demo, and PL Language Arts) and "Communities" (listing Edmodo High, My High, District Office, Edmodo District, and My District). At the bottom left, a red-bordered box highlights the "Parent Code" section, which contains the text "Give this code to your parents so they can create an Edmodo account" and a blue button with the code "kqnsxu". A red arrow points from this box to another red-bordered text box that reads: "Give this code to parents to create their parent accounts." The main content area shows "Latest Posts" from "Mr. Roosevelt to PG Science" with a question about the largest planet in the solar system and a poll with options: Earth, Jupiter, Neptune, and Venus.

**You will then (this is only if a parent has never created an Edmodo Parent Account):**

4. Visit [www.edmodo.com](http://www.edmodo.com) and select the “I’m a Parent” button, just below the student and teacher sign up buttons.

5. Fill out the registration form with the unique 6-digit parent code, the relationship with the child and a valid email address.

6. Select the “Sign Up” button to complete the sign up process.

*Note: Once a parent has created the Parent Account, the parent is automatically observing any Group that the child is part of in his/her Account. A Parent Account allows you to see a [limited view of your child's activity](#). Any Group the child adds in the future will be added to the Parent Account as well.*

### ***To add another student to your account***

There is no need to create an additional Parent Account for each child. To add another child to your existing account, please follow these steps:

1. Obtain the 6-digit **Parent Codes** from your children’s accounts (each child will have a *different* Parent Code on his/her account).
2. Log in to your previously created **Parent Account** (if you don’t already have an account, you must first [create an account](#) using one child’s Parent Code before adding another child).
3. Click “**Add a Student**” in the top toolbar.
4. Type in the **Parent Code** to observe your other child’s account.
5. Repeat for any other children you need to add to your account.

Note: If your child created two accounts by mistake and you linked them both to your Parent Account, you can easily [remove the duplicate account](#).

The screenshot shows a parent account dashboard with a navigation bar at the top containing a home icon, a calendar icon, a grid icon, a search bar, and an "Add a Student" button. Below the navigation bar is a "Notifications" section with icons for "Assignment Due", "Late Assignment", "New Grade", and "Upcoming Events". The main content area is divided into "Latest Posts" and "Students". The "Latest Posts" section contains three posts from "Ms. Hall to P6 Language Arts (Zora), P6 Language Arts Parents (Zora)". The "Students" section shows a profile for "Zora" with "Profile" and "Grades" links. A modal window titled "Add student" is open, featuring a text input field for "Enter the student's Parent Code:", a "Reason" dropdown menu, and an "Add" button. Three red callout boxes with arrows provide instructions: one points to the "Add a Student" button, another points to the "Parent Code" input field, and a third points to the "Reason" dropdown.

Click "Add a Student" to add another child to your account.

Once you have created a Parent Account, you can add all your children using your ONE Parent Account.

Each child will have a different parent code on his/her account.

You can find the parent code at the bottom of the left side panel on your child's account.

### What You Can See on Your Parent Account

Your Parent Account allows you to observe the important activity and events on your child's account. Your account is automatically updated as your child uses Edmodo and participates in his/her Groups.

- Once you've [added your child](#) to your account, you will be able to see the following:
  - **Your Homepage:**
    - [Assignments due](#) within the next two weeks.
    - [Late Assignments](#).
    - [New grades](#) your child has received on an Assignment or Quiz.
    - [Upcoming events](#).
    - [Assignment comments](#) made by your child's teacher.
    - [Alerts](#) sent to your child's group, and all replies to the Alert
    - [Latest Posts](#):
      - Direct messages between your child and his/her teacher(s).
      - Messages from your child's teacher(s) sent to the Parent Group.
  - **Your Planner.**
  - **Your Student:**
    - [Student's grades](#) for each of his/her Groups.
    - List of your [student's teachers](#).
    - [Student's school](#).
    - [Student's Profile](#).
- *Note: Parent Accounts serve as an observational tool. At this time, parents cannot send messages or reply to posts. Expecting to see more posts from your child's teachers? You will only see these posts on your account if the teacher has included the Parent Group in the post, or if your child's teacher has sent a direct post only to your child (or vice versa). Check with your child's teacher if this is a concern and direct the teacher to our Help Center page about about [sending posts to Parents](#).*

The screenshot shows a parent dashboard with several key sections and callouts:

- Top Navigation:** A home icon, a "View your Planner" button, an "Add a Student" button, and an "Account" link.
- Notifications:** A section with five cards: "Assignment Due" (with a red notification badge), "Late Assignment", "New Grade", "Upcoming Events" (with a red notification badge), and "Assignment Comment". A callout box explains: "Dashboard view of notifications- automatically be notified about assignments due, late assignments, new grades, upcoming events, and any comments a teacher has made on an assignment."
- Latest Posts:** A section with a "Filter posts by" dropdown and a list of posts from "Ms. Hall to PS Language Arts (Zora), PS Language Arts Parents (Zora)". One post is a reminder about field trip permission forms. A callout box explains: "View direct messages between your child and his/her teacher(s) and any posts sent to the Parent Group. Note: At this time, parents do not have the ability to send messages or reply to posts."
- Students:** A section with a "Zora Profile/Grades" link. A callout box explains: "View your child's Profile and grades."
- Teachers:** A section listing teachers: "Mr. Fred Hill Creative Arts", "Mr. Theodore Racewolt Computer Technology", and "Mr. Abraham Lincoln Language Arts". A callout box explains: "View your child's teachers."
- Schools:** A section with links for "My Middle School", "My High School", "Central Office School", and "Somers High School". A callout box explains: "View your child's school."

## Parent FAQs

- **Can parents directly message their students' teacher(s)?**
  - At this time, this feature is not available for Parent Accounts.
- **Where do I find the Parent Code unique to my student?**
  - You will find the Parent Code at the bottom of the left side panel on your child's account. Your child's teacher can also provide you with the Parent Code.
- **Can we have more than one Parent Account associated with one student?**
  - Yes! Multiple Parent Accounts can be set up for one student. You do not have to share a Parent Account with another parent, relative, guardian, or even a coach. Simply use the same Parent Code found on the student's account to [create your Parent Account](#) (must have a different email

address). The same Parent Code for one student can be used multiple times.

- **Can I have more than one student on my Parent Account?**
  - Yes! You can [add multiple children](#) to your one Parent Account. Simply click the “Add a Student” button in the top toolbar on your Parent Account. Enter the student’s unique Parent Code, select a relationship to the student, and click “Add.”
- **Can I merge my Parent Account and Teacher Account?**
  - Unfortunately, you cannot merge the two separate accounts. We believe that each account has unique functions that serve a specific purpose, and therefore the account features are separate. You can easily register for two different accounts.
- **Can parents join Groups?**
  - At this time, parents are not able to join Groups.
- **What if I forget my password?**
  - If you forget your password, you can go to [www.edmodo.com](http://www.edmodo.com) and click the “Forgot your password?” button on the login page. You will receive an email with instructions on how to recover your password. If you have any issues with this, please contact [support@edmodo.com](mailto:support@edmodo.com) for further help.
- **How can I get more information about Privacy?**
  - You can visit our Privacy Policy at <http://www.edmodo.com/corporate/privacy-policy> and can always contact us at [info@edmodo.com](mailto:info@edmodo.com) for more information.
- **Can I upload a Profile Picture?**
  - Parent Accounts do not have a Profile page and therefore cannot upload Profile Pictures.
- **Can I sign up for a Parent Account on the Edmodo app for my iPad or mobile device?**
  - Currently, parents cannot create their accounts on the mobile or iPad Edmodo app.
- **Can I send posts or reply to posts?**
  - At this time, it is not possible to send a message or reply to a post from a Parent Account.
- **Why is a post showing up on my child's account but not on my Parent Account?**
  - You will only see these posts on your account if the teacher has included the Parent Group in the post, or if your child's teacher has sent a direct message to just your child (or vice versa). Check with your child's teacher if this is a concern and direct the teacher to our Help Center page about [sending posts to Parents](#).
